EDUCATION

Web Development using Node JS and Angular

National Telecommunic-ations Institute (NTI) | December - 2021

The entire course is based on learning how to be a professional Node developer capable of developing, testing, and deploying real-world production applications.

Web Design

National Telecommunic-ations Institute (NTI) | October - 2021

This course introduced me to a variety of methods for creating websites such as Hyper Text Markup Language (HTML), Cascading Style sheets (CSS). Bootstrap framework and JavaScript (JS).

Front end web development professional

Udacity | April - 2021

This certificate taught me how to:

- 1) Create and modify web content using JavaScript.
- 2) Work with Node and Express to develop a web application.
- 3) Build a web server.
- 4) Use promises to manage asynchronous Javascript.

Web development challenger track

Udacity | January - 2021

This certificate was the first step for me in my learning journey about front-end web development.

I learned from this course how to:

- 1) Create and style web components using HTML
- 2) Position and display website elements using CSS
- 3) Build a responsive website layout
- 4) Build a website using WordPress
